Gds Mccz Div developed from south toward north and terminated in the Lieberose training Frea, where small elements of the division presumably were to represent the enemy force. The return to Borlin of elements of the 24th Gds Mecz Regt of the division indicated that the exercise probably terminated on 19 March. Observations at the barracks installation on Braunsdorfer Strasse indicated that units of the 312th Gds RL Regt of the Fourth Gds Mecz Army also participated in the winter exercise of the division.
